STATEMENT

Maalin Group shares with its valued customers, especially those who have participated in the first and second phases of the third phase. Dear Customers, As promised, the third phase was scheduled for October, but unfortunately new challenges have arisen from some of the former agents who have not yet submitted their list of potential customers.

It is worth noting that the company was composed of representatives who gathered 4,000 customers who benefited greatly from the company.

But when the crisis happened, some pretended to be victims and still refused to be held accountable.

Maalin Group, which is aware of the incident and is seeking to take responsibility for its shareholding, has found that the error was caused by some of the agents involved.

They have so far refused to pay the debts and return the people's property or prove that the company owes them money.

Thank God 1220 people have so far registered and met the requirements which means that 30.5% of the customers are said to be missing something.
